

**JACK  
RABBIT**

**“Built for Speed...  
Born to Run”**

# JACK CART

**Side-Dump Shuttle Cart**

**Eliminate the costly time and expense of switching out carts and speed up your harvest with the 335 cubic foot side-dump bin.**

# JACK CART

The large capacity bin (335 cubic feet) allows you to transport more product with fewer carts.

The side-dump design eliminates clogging and allows for faster unloading at elevator.

Quickly unload product from the Wedge 10 reservoir cart at the end of the row.

**The original high-capacity side-dump shuttle cart allows you to transport more product in less time for a quicker delivery to huller or dryer.**
