PREPPER JACK

Windrow Conditioner

The Prepperjack Conditioner will speed up your harvest with drier nuts, less sticks, and conditioned product for a faster delivery to the huller.

PREPPER JACK

Windrow Conditioner

Before Conditioning

After Conditioning

Large stick collection bin with conveyor belt

Momentary switch for hydraulic trap door and conveyor belt

Optional drag bar for a smooth row

- Removes Sticks and Debris for clean uniform 30" windrows
- Reduces drying time for earlier pickup
- Hydraulic bin door for even product placement
- High capacity stick bin with left or right belt discharge for fast unloading
- Condition if untimely weather prevails
- Irrigate sooner

Removing sticks and debris from your windrow allows for faster drying and smoother pickup so you can irrigate sooner!
