

# JACK RABBIT

## WEDGE 10 RESERVOIR CART

Dual chain conveyor cart with unique bin design for fast,  
gentle and clean unloading on the go.

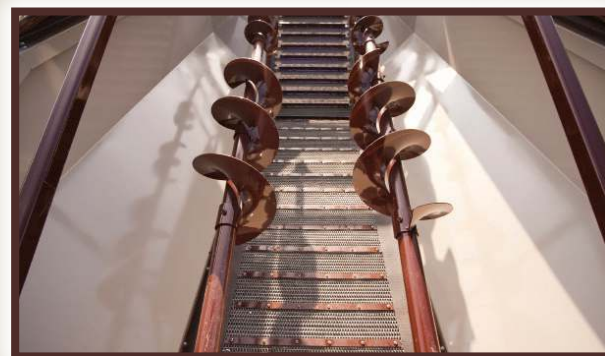

# “BUILT FOR SPEED... BORN TO RUN”

The Wedge 10 leads the field as the fastest and most reliable unloading cart.

It's unique bin design and side panels allow nuts to gently funnel towards the back without spillage and minimal nut damage. The dual chain system maximizes dirt removal and prolongs chain life.

Augers are standard on the Wedge 10. Simple and effective for quick unloading.

The optional Draper Top eliminates nut damage by gently combing the nuts from front to rear.

Optional De-Sticker effectively removes unwanted sticks while in the orchard.

Unload on the go with an optional Runner Valve.

Stick discharge belts are standard on all De-Sticker carts.

Front View

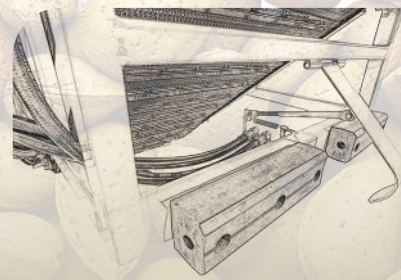

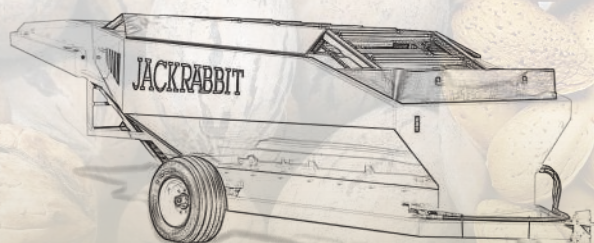

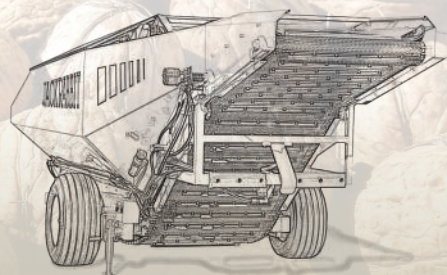

Standard wire mesh chain for maximum dirt removal and longevity.

Optional tube chains are ideal for removing unwanted dirt and hulls in walnuts and pecans.
