**“Built for Speed...
Born to Run”**

HARVESTER

Lower Dust – Cleaner Product – Faster Speed

Jackrabbit's harvester is specially designed to remove dirt and reduce dust without sacrificing pick-up speed. With four heavy-duty bar-chains, more dirt and sand is allowed to fall through resulting in less dust and a cleaner product going into the cart.

HARVESTER

Lower Dust – Cleaner Product – Faster Speed

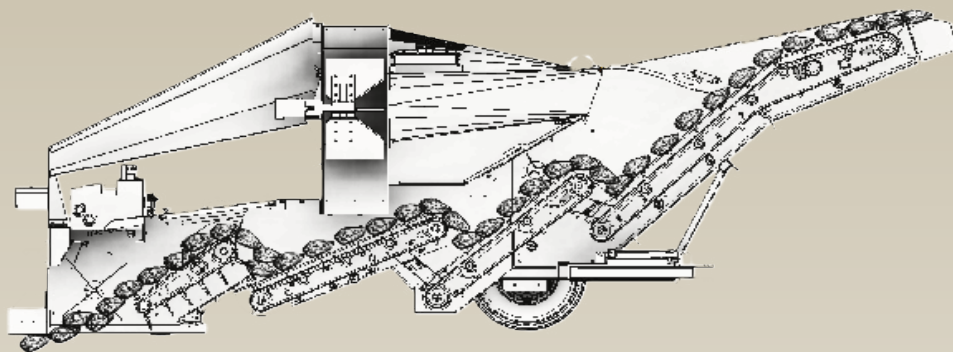

Hydrostatic pump for variable fan speed

Pickup head and cleaning cartridges for rapid repair

Adjustable damper to fine tune airflow

The industry first four-chain system allows additional tumbling resulting in maximum removal of dirt and debris.

SPECIFICATIONS

Height.....86.5”
 Weight..... 4,912 Lbs.
 Length.....210”
 Axle to Axle Length 96”
 Width..... 99.89”
 Pick-up Belt Type Twin-Rod
 Pick-up Width..... 48.75”
 Cleaning Width48.14”

Number of Cleaning Shafts..... 11
 Incline Chain TypeTwin-Rod
 Fan Type..... Centrifugal
 Flow Controls Pick-up Belt
 Hydraulic Coupler Type Parker 6601-6602
 Hydraulic Fluid Type..... ISO 68
 Hydraulic Tank Size 41 Gallons
 PTO RPM..... 540
 Minimum HP Requirement 85
